[WRITING FOR THE WEBSITE](#)

1. Know your audience. When you are writing your copy, know (and envision) the audience you are addressing.
2. Address your audience directly. This means you language. Example: You can return an item borrowed from the library to any library in the system. Not Items borrowed from a DCLS library can be returned to any library in the system. We want the website to be a conversation, not a dissertati...

[WRITING FOR DOLLARS.](#)

Writing to Please Joseph Kimble There s one piece of unfinished business, one more link in thechain, one last proof to be made against legalese. We who extolplain language need to show, conclusively, that it works. We needto show that it saves time and money and that it beats legalese inevery way with readers. Call it the benefits of plain language. The literature containsstudies about these bene...
